Note: Capt. Murney, whose name has been perpetuated in the Murney Tower and in Murney Point (formerly Grass's Point), is described in his application for 1200 acres of land and a Town Lot in Kingston, on July 3, 1795, as "Master of the Merchant Vessel." He received 200 acres; and, according to Bishop Richardson's REMINISCENCES, he purchased the Point from Capt. Grass (U. C. Land and State Book A, p 242). According to Col. John Clark's MEMOIRS, he married a Miss "Smith" of Kingston. The note on the Smyth family shows who she was. The same gentleman is authority for the statement that the Hon. Edward Murney, M.P.P., was a son of the Captain. About 1800 or 1801 the latter built, in the County of Prince Edward, "a Schooner of Red Cedar, which vessel was named the PRINCE EDWARD. - - - In the year 1800, this Schooner was in good condition and was employed as a Government Armed Vessel on Lake Ontario." - - - "He was a noble Captain of a Staunch good Ship." As early as December, 1801, he is mentioned by Mr. Cartwright as Master of the Prince Edward when the former was writing to Messrs. John and James McGregor (Heller Book, Shortt Collection).
